BUILD to PLAY

~ WEEK 2 ~

LEGO CLASSIC

LEGO CREATOR

REV-UP YOUR IMAGINATION!

A running truck that has legs instead of wheels? Sure! Or a water-powered jet that can fly into space? Absolutely! Ready, set, build!

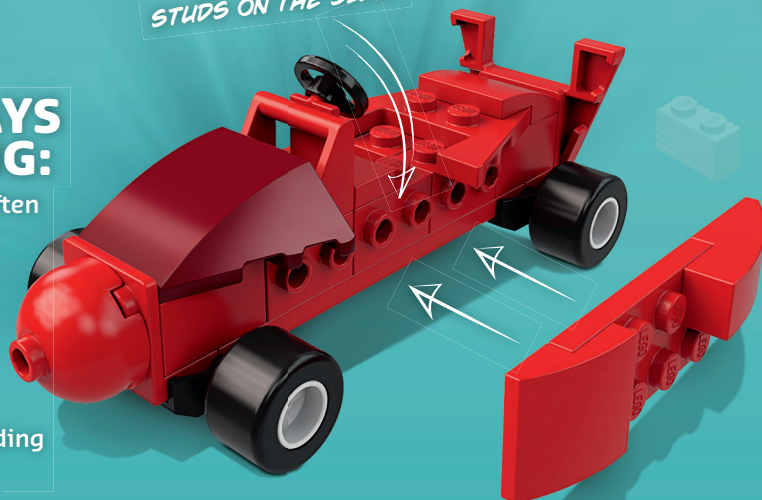

YOUR WEEKLY TIP FOR BUILDING A STRONG LEGO® MODEL

SIDEWAYS BUILDING:

LEGO® models often have pieces that are built in different directions, so when you're planning out a new creation, think about building sideways!

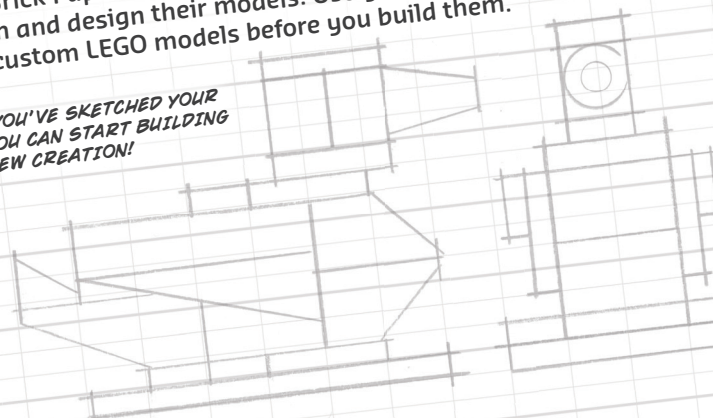

Switch out the standard bricks for LEGO® bricks with studs on their sides, and you'll be able to connect sideways-facing bricks or plates in the same way. This will allow you to add both strength and detail in unlikely areas of your amazing creations. Go for it!

THE OFFICIAL LEGO® BRICK PAPER!

This Brick Paper is the same kind that the LEGO Master Builders use to sketch and design their models. Use your Brick Paper to plan out your own custom LEGO models before you build them.

AFTER YOU'VE SKETCHED YOUR IDEA, YOU CAN START BUILDING YOUR NEW CREATION!
